REQUEST FOR CORRECTED FILING RECEIPT

Office of Initial Patent Examination's  
Customer Service Center  
Honorable Commissioner of Patents  
and Trademarks  
Washington, D.C. 20231

Sir:

It is respectfully requested that a corrected Filing Receipt be issued in connection with the above-identified application, in order to correct the following:

The filing date is listed as January 16, 2002. The correct filing date is November 7, 2001, the date that the Response to Notification of Missing Requirements was mailed to the U.S. Patent and Trademark Office. The Response was mailed to the U.S. Patent and Trademark Office on November 7, 2001 via first-class mail. However, because of the appearance of anthrax in several postal stations in the Washington, D.C. area, there was a delay in delivery for mail that was sent during the months of October and November 2001 due to quarantine and subsequent mail sterilization. Thus, the Patent Office received the Response on January 16, 2002, more than two months after the mailing date. Enclosed please find a copy of the Response, executed by the attorney of record in this case and dated November 7, 2001, and a copy of our firm's Equitrac Report Generator. This Report

indicates that two items identified by the above-identified docket number were mailed on November 7, 2001. One of these items was the Response, the other was a reporting letter to our client regarding the same.

A copy of the Filing Receipt is attached hereto with the error marked in red ink.

Please forward the corrected Filing Receipt to the undersigned attorney of record.

Respectfully submitted,

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
